

MOHEGAN GAMING & ENTERTAINMENT ANNOUNCES FIRST QUARTER FISCAL 2019 OPERATING RESULTS

Uncasville, Connecticut, February 7, 2019 – Mohegan Gaming & Entertainment (“MGE” or the “Company”), a master developer and operator of premier global integrated entertainment resorts, including Mohegan Sun in Uncasville, Connecticut and Inspire Korea in Incheon, South Korea, announced today operating results for its first fiscal quarter ended December 31, 2018.

“While consolidated first quarter revenues and Adjusted EBITDA were modestly below prior year results, we remain encouraged, as overall gaming volumes at our flagship property, Mohegan Sun, were better than expected following the first full quarter of increased competition in the Northeast gaming market,” said Mario Kontomerkos, President & Chief Executive Officer of MGE. “Additionally, non-gaming revenues in Connecticut improved significantly, reflecting the initial implementation phases of our previously disclosed multi-year profit enhancement initiatives. Despite the early success of these programs, and the overall outperformance relative to internal and consensus external forecasts, these strategic revenue enhancement and operational cost containment initiatives will continue to ramp up for the foreseeable future. In addition, we are also excited to embark on the next phase of our integrated gaming and entertainment strategy, having recently announced a strategic partnership with the Kindred Group, a leading international online gaming and sports wagering operator. This agreement will provide Mohegan Sun Pocono with a total sports wagering solution, including technology and brand support for our brick and mortar sports book operation, along with a complete online sports wagering offering. This announcement comes on the heels of our success at Resorts Atlantic City, which hosts the market leading DraftKings sports book. These experiences leave us well positioned to react quickly to the prospect for sports wagering legislation in Connecticut as well, to the extent that materializes in this current legislative session.”

Selected consolidated operating results for the first quarter ended December 31, 2018 and prior year period (unaudited):

- Net revenues of \$319.5 million vs. \$331.5 million in the prior year period, a 3.6% decrease;
- Income from operations of \$43.4 million vs. \$55.0 million in the prior year period, a 21.1% decrease; and
- Adjusted EBITDA of \$71.9 million vs. \$76.0 million in the prior year period, a 5.4% decrease.

Consolidated net revenues declined modestly during the quarter, driven by slightly lower gaming revenues at Mohegan Sun and Mohegan Sun Pocono, and continued increases in promotional activities in the Mohegan Sun Pocono gaming market. These factors, combined with higher slot taxes assessed by the Commonwealth of Pennsylvania and increased healthcare costs, all contributed to the year-over-year decline in Adjusted EBITDA.

On October 1, 2018, the Company adopted Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606), on a modified retrospective basis. As such, results for the three month period ended December 31, 2018 in this release are presented under this new guidance, while results for the three month period ended December 31, 2017 remain presented under prior guidance. For an analysis that provides comparative results under this new guidance, please see our supplemental earnings deck, available on our website (<https://mohegangaming.com/financial-information/>).

Mohegan Sun

Operating results (in thousands, unaudited):

	For the Three Months Ended			
	December 31, 2018	December 31, 2017	Variance	Percentage Variance
Net revenues	\$ 252,679	\$ 262,937	\$ (10,258)	(3.9%)
Income from operations	\$ 44,063	\$ 56,393	\$ (12,330)	(21.9%)
Adjusted EBITDA	\$ 68,549	\$ 73,534	\$ (4,985)	(6.8%)

Net revenues and Adjusted EBITDA declined modestly during the quarter, driven by lower overall gaming revenues which were largely offset by stronger non-gaming results. Slot and table volumes declined a modest 3.7% and 0.9%, respectively, well ahead of internal and industry expectations. Gaming revenues were also adversely impacted by lower hold for both slots and tables. Non-gaming revenues increased during the quarter, with increases in almost all segments of the business. Notably, when you compare our first quarter results to comparative results of the prior period under the new revenue standard, food and beverage revenues increased 11%, while hotel revenues increased 8.0%, reversing last quarter's 2.8% decline. The decline in Adjusted EBITDA also reflects higher medical expenses.

Mohegan Sun Pocono

Operating results (in thousands, unaudited):

	For the Three Months Ended			
	December 31, 2018	December 31, 2017	Variance	Percentage Variance
Net revenues	\$ 60,791	\$ 64,804	\$ (4,013)	(6.2%)
Income from operations	\$ 7,192	\$ 7,675	\$ (483)	(6.3%)
Adjusted EBITDA	\$ 10,608	\$ 11,017	\$ (409)	(3.7%)

Net revenues declined during the quarter, driven by lower gaming revenues, which reflect the adverse impact from lower table hold, combined with efforts to increase profitability associated with hotel marketing programs. Overall, the local gaming market remains characterized by continued aggressive promotional activity from a regional competitor, although December results suggest a return to normalized levels. Overall, Adjusted EBITDA was adversely impacted from lower revenues, higher slot taxes given a 1% increase in slot taxes assessed by the Commonwealth of Pennsylvania, effective January 1, 2018, and unusually high medical expenses during the quarter. These results were partially offset by a reduction in gaming costs and expenses, including lower payroll costs and certain casino marketing and promotional expenses.

Adjusted EBITDA	\$ (7,291)	\$ (8,566)	\$ 1,275	14.9%

The increase in net revenues and Adjusted EBITDA was primarily due to higher management fees from ilani Casino Resort driven by continued improvement in performance at the property.

On October 1, 2018, the Company adopted Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers (Topic 606) ("ASC 606"), on a modified retrospective basis.

(1) ASC 606 modified the accounting related to loyalty points. The Company is now required to reduce gaming revenues by the estimated fair value of loyalty points earned by patrons and recognize the related revenues when such loyalty points are redeemed.

(2) ASC 606 modified the accounting related to promotional allowances. The Company no longer recognizes revenues for complimentary items provided to patrons, as well as for goods and services provided to patrons in connection with loyalty point redemptions, as gross revenues with a corresponding offset to promotional allowances to arrive at net revenues. The majority of such amounts previously included within promotional allowances now offset gaming revenues based on an allocation of revenues to performance obligations utilizing stand-alone selling prices. These changes resulted in the elimination of promotional allowances and the reclassification of revenues between the various revenue line items.

(3) ASC 606 modified gross versus net presentation. The Company now records mandatory service charges on food and beverage items and wide area progressive operator fees on a gross basis, with amounts received from patrons recorded as revenues with the corresponding amounts paid recorded as expenses. This change resulted in an increase in revenues with a corresponding increase in expenses.

Adjusted EBITDA Explanation:

Net income before interest, income taxes, depreciation and amortization, or EBITDA, is a commonly used measure of performance in the casino and hospitality industry. EBITDA is not a measure of performance calculated in accordance with GAAP. MGE historically has evaluated its operating performance with the non-GAAP measure, Adjusted EBITDA, which as used in this press release, represents net income before interest, depreciation and amortization, gain on disposition of assets, workforce reduction severance, pre-opening costs and expenses, accretion of discounts, income from unconsolidated affiliates, other non-operating income and expense and Adjusted EBITDA attributable to non-controlling interests.

Adjusted EBITDA provides an additional way to evaluate MGE's operations and, when viewed with both MGE's GAAP results and the reconciliations provided, MGE believes that it provides a more complete understanding of its business than could be otherwise obtained absent this disclosure. Adjusted EBITDA is presented solely as a supplemental disclosure because: (1) MGE believes it enhances an overall understanding of MGE's past and current financial performance; (2) MGE believes it is a useful tool for investors to assess the operating performance of the business in comparison to other operators within the casino and hospitality industry since Adjusted EBITDA excludes certain items that may not be indicative of MGE's operating results; (3) measures that are comparable to Adjusted EBITDA are often used as an important basis for the valuation of casino and hospitality companies; and (4) MGE uses Adjusted EBITDA internally to evaluate the performance of its operating personnel and management and as a benchmark to evaluate its operating performance in comparison to its competitors.

The use of Adjusted EBITDA has certain limitations. Adjusted EBITDA should be considered in addition to, not as a substitute for or superior to, any GAAP financial measure including net income (as an indicator of MGE's performance) or cash flows provided by operating activities (as an indicator of MGE's liquidity), nor should it be considered as an indicator of MGE's overall financial performance. MGE's calculation of Adjusted EBITDA is likely to be different from the calculation of Adjusted EBITDA or other similarly titled measurements used by other casino and hospitality companies, and therefore, comparability may be limited. Adjusted EBITDA eliminates certain items from net income, such as interest and depreciation and amortization. Each of these items has been incurred in the past, will continue to be incurred in the future and should be considered in the overall evaluation of MGE's results. MGE compensates for these limitations by providing relevant disclosures of items excluded in the calculation of Adjusted EBITDA, both in its reconciliations to the GAAP financial measure of net income and in its consolidated financial statements, all of which should be considered when evaluating its results. MGE strongly encourages investors to review its financial information in its entirety and not to rely on a single financial measure.
